DINESH MOHAN

Security-Focused Systems Engineer | SIEM, Detection & Compliance

Chennai, India • dinesh190704@gmail.com • linkedin.com/in/dinesh-mohan-894574227 • github.com/dinesh-190704

SUMMARY

System & Database Administrator with 1+ year of combined internship and full-time experience supporting 24/7 production healthcare infrastructure across Linux, Windows, MySQL and AWS. Deployed Wazuh SIEM with custom decoders and detection rules and file integrity monitoring across 10+ critical production servers, paired with Zabbix monitoring. Experienced in endpoint patch management across 60+ endpoints, vulnerability assessment, disaster recovery and ISO/IEC 27001:2022 internal audits. Seeking junior SOC, SIEM engineering or security engineering opportunities.

TECHNICAL SKILLS

- **SIEM & Detection:** Wazuh (custom decoders and rules, FIM, centralized syslog), Zabbix, threat hunting
- **Vulnerability & Patching:** Nmap, Wireshark, Action1, CVSS-based prioritization, CIS Benchmarks
- **Hardening & Networking:** Linux and Windows hardening, SSH hardening, UFW, IPTables, TCP/IP, DNS, DHCP
- **Cloud & Virtualization:** AWS (EC2, IAM, S3, VPC), Proxmox VE, VMware ESXi
- **Databases & Resilience:** MySQL administration, master-slave replication, Apache HA, automated backups and DR drills
- **Systems & Scripting:** Debian, Ubuntu, Windows Server, Active Directory, Bash
- **Compliance:** ISO/IEC 27001:2022 (ISMS, internal audit), DPDP Act 2023 (certified), working knowledge of HIPAA

PROFESSIONAL EXPERIENCE

System & Database Administrator, Kranium Healthcare System | Jan 2026 – Present | Chennai, India

Promoted from intern to sole full-time System & Database Administrator for client hospital infrastructure across physical servers and AWS EC2/VPC.

- Provide 24/7 remote incident troubleshooting for client hospitals in India and East Africa; own provisioning, application deployment and database administration end to end.
- Deployed Wazuh SIEM on AWS EC2 monitoring 10+ critical production servers, with custom decoders, real-time alerts for authentication anomalies, and FIM on critical paths.
- Configured Apache HA and MySQL master-slave replication; automated daily backup validation with offsite copies, and ran scheduled disaster recovery drills to confirm the HIMS/EMR database can be restored.
- Migrated a 200+ bed hospital's HIMS/EMR and multi-GB MySQL database from VMware ESXi to Proxmox VE with zero data loss and under 30 minutes downtime.
- Led 2 ISO/IEC 27001:2022 internal audits and prepared the team for an external surveillance audit; authored access control matrices and incident runbooks.
- Conducted VAPT with Nmap and Wireshark, identified and remediated multiple vulnerabilities, and deployed Action1 across 60+ endpoints for CVSS-prioritized, scheduled patching of high and critical issues with no workday disruption.

System Administrator Intern, Kranium Healthcare System | Jul 2025 – Dec 2025 | Chennai, India

- Provisioned VMs on VMware ESXi and Proxmox VE; configured networking, DNS, DHCP and host firewalls (UFW, IPTables).
- Monitored MySQL transaction logs, assisted with query optimization, and resolved hardware and network support tickets.

KEY PROJECTS

Wazuh SIEM & Zabbix Monitoring Hub

- Built a multi-node Wazuh cluster on AWS EC2 collecting telemetry from 10+ critical hospital servers; wrote custom rules for SSH brute force and privilege escalation.
- Added Zabbix for 24/7 host and service monitoring alongside security events.

Action1 Patch Management & VAPT

- Ran Nmap and Wireshark assessments of perimeter and internal attack surface; found and remediated multiple vulnerabilities, prioritizing high and critical CVSS findings, through Action1 patch automation across 60+ endpoints.

ISO/IEC 27001:2022 ISMS & Internal Audit Program

- Established ISMS controls across corporate and hospital environments: least-privilege Active Directory permissions, asset registers and audit-ready documentation.

CERTIFICATIONS

- ISO/IEC 27001:2022 Internal Auditor, Beacon Desyne / Bureau Veritas (Reg: BD/ISMS-IA/26/186)
- Digital Personal Data Protection Act, 2023 – Certificate Course & Examination (92%), DPDPA.com | Oct 2026
- Oracle Cloud Foundations Associate, Oracle University
- Cisco IT Support Specialist, Cisco Networking Academy

EDUCATION

B.Tech in Information Technology, Jaya Engineering College, Anna University, Chennai | 2021 – 2025 | 85% aggregate
